

TRAIL KING
HDG-S

DOMINATES EVERY HAUL TOUGH BY DESIGN.

Designed for extreme heavy-duty hauling, Trail King's HDG-S trailer delivers exceptional strength, capacity, and control. Built to handle up to 160,000 lb., this trailer features a double box perimeter beam—style deck, with an optional extendable configuration that maximizes versatility across a wide range of oversized and high-weight loads. With precision automatic kingpin steering this allows for maximum maneuverability on the highway and in tight job sites.
