

TRAIL KING  
HES-S

# RELIABILITY REDEFINED BUILT FOR PERFORMANCE

Designed for dependable heavy-duty hauling, Trail King's HES trailer delivers the strength, stability, and performance operators rely on every day. Built to handle up to 130,000 lb., this trailer features a mono box beam—style deck that provides long-term durability and confident load support. With precision automatic kingpin steering on the rear tridem and caster steer on the front tridem this allows for maximum maneuverability on the highway and in tight job sites.
